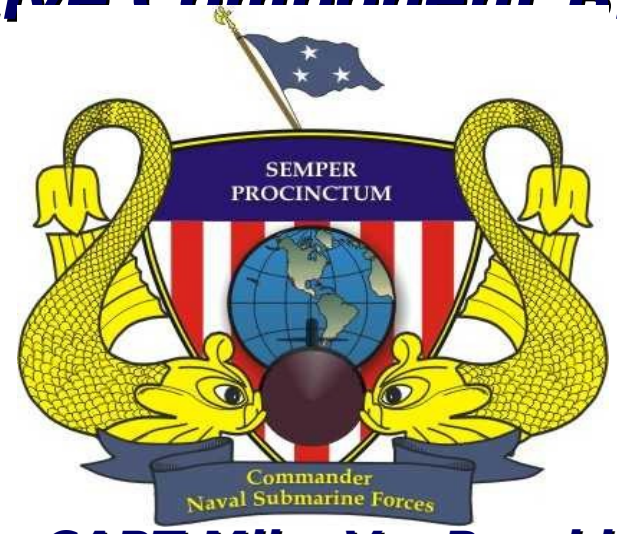
SUBFOR Reserve Component Overview
Active Component Brief



CAPT Mike VanBrocklin
Total Force Strategy Director (SELRES)
CAPT Boothe Higgins (SELRES)
Force Recruiting Director
CDR Adam Binford
COMSUBFOR Operational Support Officer N1R
CDR Steve Brown
COMSUBPAC Operational Support Officer N1R

Briefing Purpose

- **Raise the awareness of the Active Component of the needs of the Submarine Force Reserve Component**

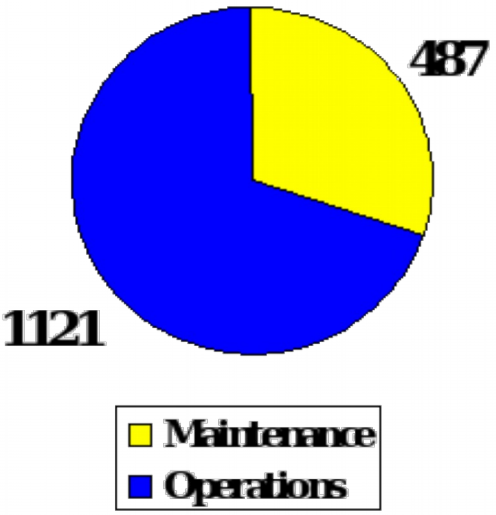
- **Provide the separating Junior Officer with an overview of career path options, Submarine Force Reserve Component mission areas and unit locations**

- **Provide the Active Component with points of contact for questions on transitioning to a career in the Reserves**

SUBFOR Reserve Component Mission Capability Areas – Unit Types

CAPABILITY BASED

1608 Requirements



Operations Unit Types

- **Strike Group Operation (SAT/SEC support to ESG/CSGs)**
  - **160 Enl / 240 Off**
- **SUBFOROPS (CSG7/8 CSL/CSP OPCONS)**
  - **194 Enl / 121 Off**
- **Theater Undersea Warfare (CTF 12 / 84 /74/ 69)**
  - **41 Enl / 35 Off**
- **Submarine Rescue (DSU and ISMERLO)**
  - **62 Enl / 17 Off**
- **TACDEV (DEVRON 12)**
  - **8 Enl / 22 Off**
- **SUBFOR Security (SCOOP)**
  - **156 Enl / 18 Off**
- **SSGN Support (CSG9/10)**
  - **14 Enl / 14 Off**

Maintenance Unit Types

- **Expeditionary Maintenance (AS 39/40)**
  - **400 Enl / 0 Off**
- **Waterfront Ops (NSSCs)**
  - **65 Enl / 22 Off**

Typical 1120/1125 Career Path

0 0.5 1 1.5 2 2.5 3 3.5 4 4.5 5 5.5 6 6.5 7 7.5 8 8.5

INITIAL ACTIVE DUTY SERVICE (no direct accession to RC)

- All 1125s complete 12-month grad-level Nuclear pipeline training
- All complete an at-sea Division Officer leadership tour
- All are warfare qualified; most Nuclear Engineer qualified (SN0)
- Most complete post-JO shore tour
- Some complete highly operational at-sea Department Head tour

TRANSITION TO RC

- Many complete post-grad education (1st or 2nd Masters)

ENS LTJG LT

9 9.5 10 10.5 11 11.5 12 12.5 13 13.5 14 14.5 15 15.5 16 16.5 17 17.5

- Operational assignments within various SUBFOR mission areas
- Jobs include Training, Admin, Operations, XO
- Frontrunners selected for CO/OIC in or out of community
- OPS units in SUBFOR, major staffs, others out of community
- Leadership evidenced by assignment to Command, XO, Exercise Lead, DH on major staff, etc.
- Operational focus evidenced in various ways—SATWO, TASWO, SEC, BWC quals; MOB/ADSW; etc.
- JPME, selection boards, NRAMS, etc.

LCDR CDR

18 18.5 19 19.5 20 20.5 21 21.5 22 22.5 23 23.5 24 24.5 25 25.5 26 26.5

- Command, XO, multi-unit coordination roles, other positions of leadership in & outside community
- SEC/ASWC on CSG/ESG, Exercise Lead, additional warfighting AQD's/NOBC's, JPME, additional use of ADT/ADSW, GWOT
- Flag-interest projects, selection & policy boards, NRAMS
- Major command, COS, XO, Major staff ACOS, other positions of senior leadership
- SUBFOR RC EXCOM/Director; regional/national mentoring
- JFROC, Flag-interest projects, selection boards, policy board lead, etc.

Mobilization

- **The Submarine Force Reserve Component is a critical element in supporting OIF/OEF/GWOT**
  - **Individual Augmentees to various commands**
  - **Customs Detachments**

- **Current Mobilization Guidance is contained in NAVADMIN 007/07**
  - **2 year deferment if affiliate with the Navy Reserve within 6 months (183 days) of release from Active Duty**
  - **1 year deferment if affiliate with the Navy Reserve between 7 and 12 months (184-365 days) of release from Active Duty**
  - **Deferment from involuntary mobilization commences on the affiliation date with the Navy Reserve**
  - **Applies to all NAVET and OSVET sailors who have affiliated with the Navy Reserve since 02 Oct 06**

COMSUBFOR Reserve Component

Reserve Capability Area Details

LANT/PAC Unit Organization Charts

Capability Area Details

Strike Group Operations

Operational command and control of U.S. submarines when assigned to CVSG and ESG. During major exercises and high tempo operations, Submarine Advisory Team (SAT) coverage is required for maximum SSN utilization while assigned to Strike Group. Provide Water-space Management/Prevention of Mutual Interference, communications, undersea warfare expertise, and insure no blue on blue events. Provides a surge capable enhancement to ASW capability of the Strike Group.

Submarine Force Operations

Operational command and control of U.S. and allied submarines. Control water space assignments and provide operational tasking. Directly support strike, undersea warfare, ISR, SOF, strategic deterrence and other submarine missions. Provide continuous communications capability for all submarine broadcasts and communications circuits.

Capability Area Details (Cont'd)

Theater Undersea Warfare

Operational coordination of detection, classification, localization, prosecution, and if necessary, destruction of hostile or potentially hostile submarines. Centrally coordinate air, surface and submarine platforms to provide real time locating and cueing data for tracking and prosecution of submarine threats to the U.S. or its allies. Provide essential command and control assistance to operational authorities for USW assets in theater.

Submarine Force Security

Provide force security at forward bases, both CONUS (non-Navy ports) and OCONUS (US Navy facilities during high threat periods), in support of SSBN COOP OPLANs. to ensure adequate protection of submarines during ship refurbishment, re-supply, or crew swaps. Also can provide submarine security during transits of through vulnerable, high threat areas.

Capability Area Details (Cont'd)

SSGN Mission Support

Identify and develop new submarine tactics to take advantage of SOF and strike capabilities inherent in the SSGN. Provides for development of Concept of Operations for SSGN, tactical development and experimentation, including the design and conduct of at-sea exercises, analysis of the results, and promulgation of results to operational submarine fleet. Once operational, provides command and control of SSGNs, including control of water-space assignments, provide operational tasking, and support of crew changes and mission certifications at forward deployed locations.

Tactical Development and Experimentation

Identify and development new submarine tactics to counter emerging threats and new mission sets. Provides for tactical development and experimentation, including the design and conduct of at-sea exercises, analysis of the results, and promulgation of results to operational submarine fleet.

Capability Area Details (Cont'd)

Submarine Rescue

The Submarine Force is tasked with providing a global 7x24 Submarine Rescue capability. Successful deployment depends upon speed and agility which is based on both extensive training and task segmentation – deploying focused teams to expedite each point of the logistics supply train. The expertise of this specialized force can be honed and measured by exercise performance. Capability is shifting from AC to a mix of RC and contractor, with AC oversight.

Note: Majority of Capability is in COMSUBPAC AOR

Expeditionary Maintenance

Surge maintenance capability to forward deployed submarine tenders in Guam and TBD/overseas maintenance activities. Supports Sea Basing capability for mobilization of maintenance personnel to support extended global conflict and/or multiple contingency operations. Personnel provide readiness to USN forces while maintaining readiness qualifications for mobilization. Provide often short notice surge capability to local submarine repair for units collocated with USN repair facilities

Capability Area Details (Cont'd)

Waterfront Operations Support

Logistic and administrative support for U.S. submarines. Centrally provides administrative, personnel, public affairs, legal, operational, and maintenance/logistics support to operational submarines and Submarine Squadrons.
